

Features

- **Roadheader Proportional Remote Control Console**
 - Proportional Trimming Control
 - Proportional Joystick (Ideal for Roadheader boom control)
 - Waterproof
 - Totally self-contained (battery, radio transmitter, etc.)
 - MSHA Approval

Description

The Type KA Remote Control Console features both a proportional joystick and proportional trimming levers, making it well suited to roadheaders, drill jumbos and other machines where fine remote control is essential. The proportional controls of the type KA feature Forced Potato's own "self-cleaning design" that automatically ejects dust and debris from the inner mechanism.
