

OUR QUALITY POLICY

We the people of Pempek are dedicated to designing, crafting, supporting and servicing control and automation equipment deployed on underground coal mining machinery.

We are committed to providing the industry with safe, reliable, fit-for-purpose, innovative, cost-effective articles that are a delight to interact with.

We are committed to providing sterling service and support.

We endeavour delivering in a timely, considered fashion.

We believe our objectives can only be achieved through relentless pursuit of quality - by a passionate, caring, considerate workforce that never ceases learning and teaching.

The implementation, maintenance and uninterrupted review and improvement of our Quality Management System which complies with the requirements of ISO9001:2008 underpins our efforts.
